👤 PROFILE

Experienced Software Developer specializing in web development, project oversight, and team coordination. Adept at constructing secure web applications and fostering strong client partnerships, with a strategic approach to delivering cost-effective solutions and measurable results.

💼 PROFESSIONAL EXPERIENCE

08/2022 – present
San Diego,
United States

MARAGUZ Web Designs ✎

Web Developer

- Working on building or fixing client websites at my own web developer agency. Clients are in the fields of Immigration Law, Psychology and Pubs (WordPress-WooCommerce).
- Develop website to user specification by meeting with clients to discuss what they want (User story).
- Audited client site to make sure their site meets web accessibility guidelines and made proper changes.

01/2020 – 07/2020
Redmond,
United States

Microsoft

Software Engineer

- Worked on a project with 12 other engineers (4.co team) called Helium. Repositories that help guide Walmart and other Microsoft customers onboard their applications onto Azure.
- Developed an application on GitHub called Web Validate (WebV), which is a reusable deep validation tool for testing web and Web API applications.
- Developed an application on GitHub called Helium C#, which is a secure App Services with Key Vault and Managed Identity. Application can be used as reference and starting point to build a secure web app using Azure services.

02/2019 – 01/2020
Remote, United States

Bloom Institute of Technology

Section Manager (WebPT#5)

- Managed a team of 8 student developers with helping them in understanding the Lambda curriculum before and after lectures for the part time course.
- Provide code reviews for projects/code challenges in JavaScript. Make sure their work is complete in their GitHub accounts.
- Lead daily stand up meetings via zoom in the afternoons to identify goals for the day/next day as well as update the team of any current school events.
- Provide student support to students that may need help for the project they are working on. This included going on a zoom call to offer ideas on how to approach their projects, debug and make sure that pull requests are good to be merged to the master branch of the project.

11/2014 – 05/2018
South San Diego,
United States

City of San Diego

Management Analyst - Library Assistant

- Facilitate learner enrollment by conducting testing, assessment and counseling to determine program eligibility for students.
- Coordinate matching of learners with volunteer tutors for program; monitor tutor/learner progress; interview, train, supervise, and evaluate volunteer staff; develop and coordinate volunteer assessment counselor training programs.
- Maintain referral sources and other data to comply with reporting standards of program stakeholders.
- Make presentations to community agencies, human services programs, local businesses and schools to promote San Diego Public Library programs.
